4. Great, we are almost complete. Let's review your configurations before we apply them.

Username      arduark      change

Device Name      apple      change

IP Address      132.165.81.63

URL      apple.ailurus.ca      change

Done

Your device is now ready to use.

You may have to wait a few minutes before you can access your device from your URL.

Although your device is configured, it isn't very useful. Why not install a few apps from the Dashboard?

Go to Dashboard >>
